BRIDGING ENGLISH PROGRAM

The Bridging English Program (BEP) is UQ-ICTE's most popular English language pathway, with five entry points for admission into UQ programs, including Study Abroad.

Entry to a UQ program

If you meet the academic requirements for entry to a UQ program but need to meet the English language entry requirements, you can apply for a UQ package offer.

The UQ package offer includes:

- an English course to get you to the level you need for entry to your UQ program, and
- a conditional place in your preferred UQ program.

To receive a UQ package offer, you must provide evidence of your current English language ability (IELTS or other recognised test) with your UQ application. If you do not have an IELTS score or equivalent for your UQ program, or the overall IELTS score you achieved is below 5.0, join our General English classes. When you reach General English level 5, you can transfer to English for Academic Purposes.

Why study BEP

Some of the advantages of undertaking the Bridging English Program include:

- multiple entrance points to suit your English level
- weekly reviews and one-on-one progress consultation every five weeks
- gain entry into a UQ program without having to sit an IELTS test or other recognised test at the end of your program
- option to study BEP Extension and then repeat the assessment.

Bridging English Program (BEP) Advantage (recommended)

Choose BEP Advantage to complete your assessment five to six weeks before the start of the UQ semester. If you do not pass the end of program assessment the first time, you can complete the four-week BEP Extension to improve your language skills before you repeat the BEP assessment.

The benefits of choosing BEP Advantage include:

- you have time to take a break from study, prepare and get organised for your UQ program
- commence an Academic Communication Skills (ACS) course to further prepare you for your program
- undertake the BEP Extension course if you do not succeed at BEP assessment the first time.

Bridging English Program (BEP) Standard

The BEP Standard will finish immediately before the start of the UQ semester. The Academic Communication Skills and Bridging English Program Extension are not available with this option as there is no interval before the UQ semester. It is recommended that you only choose if you are unable to do BEP Advantage.

Bridging English Program student

“The teachers at UQ-ICTE are both patient and helpful. The facilities and student services are awesome.

The UQ campus is both stunning and spacious. Definitely the first benefit of learning English on a university campus is the environment.

I participated in conversation club activities, a picnic, and I joined the UQ Wasabi Club.

The benefits of learning at UQ-ICTE are that you can learn English in an English-speaking country and find a lot of opportunities to use and practice the language.

You can make friends and learn English effectively.”

- online workbook tasks (6–8 hours per week)
- read and listen extensively (3–4 hours per week)

- set writing tasks (2–4 hours per week)
- independent project work (1–2 hours per week).

How you will be assessed

Assessment tasks and tests are taken at the end of the program to evaluate your skills. If you meet all the BEP exit requirements for your UQ program you will be eligible to start your UQ program.

Bring your own device

You are strongly encouraged to bring your own device to class to assist with your studies. Your device must have a full-sized independent keyboard.
