

# Safety Confirmation System in the event of a natural disaster

★ A test e-mail message will be sent to you on Friday, July 12th ★

From April 2014, Kobe University has implemented a safety confirmation system called ANPIC. When a natural disaster such as an earthquake strikes, the ANPIC system will send an e-mail message to confirm your safety. The message will be sent to the e-mail address(es) that are registered in your Student Portfolio on the URIBO-Net.

In order to make sure you receive the message, please confirm that the registered e-mail address in your Student Portfolio on the URIBO-Net is correct and working.

If not, please revise your e-mail address on the registration screen of the URIBO-Net.

Thank you for your cooperation.

Please be noted that the ANPIC system is not loginable to make any changes on your e-mail settings.

## ★ When an earthquake occurs:

The ANPIC system will automatically send an e-mail message when a level 5 Lower or above earthquake on the Japanese seismic intensity scale occurs within Hyogo, Osaka, Kyoto, Wakayama, Tokushima, Kagawa, Okayama and Tottori prefectures.

○ Message from the ANPIC system is as follows:

(件名) 【神戸大学 ANPIC】 安否状況をお知らせください (Please report your condition.)

## ★ When other natural disasters occur:

Kobe University will manually send an e-mail message through the ANPIC system and confirm your safety.

### E-mail Address:

If either of the following two conditions apply, please make sure to adjust your mobile phone settings so that your mobile phone can receive e-mail messages sent from 【no-reply@jecc.jp】

(Your mobile phone's initial settings may assume e-mails sent from 【no-reply@jecc.jp】 are spam.)

The registered e-mail address in the Student Portfolio on URIBO-Net is:

a) your mobile phone's e-mail address, or

b) an e-mail address which automatically forwards mail to your mobile phone's e-mail address.

To receive e-mail messages sent from 【no-reply@jecc.jp】:
