

LL.M. International Business Law

DUBAI - MAURITIUS - PARIS - SINGAPORE

This program deals mainly with practical case studies and certain key subjects, with a pluridisciplinary focus. It prepares students and professionals for operations such as large acquisitions or market transactions, cross border mergers, complex financing, restructuring, LBOs, financial engineering, and industrial projects. These are interesting operations, offering difficulties that often lead to innovative solution seeking. It is particularly educational to study them and analyse the legal, financial or accounting issues raised. Thus, contracts, guarantees, financing and international trade litigation, among other basic subjects, can be studied from different angles.

"It was an intense journey and a rewarding experience in my career. I am pleased to have graduated top of the class and humbled to have been conferred the award for being the record-holder of all LL.M. programmes of Pantheon-Assas across all years and countries so far. This would not have been possible without the benefits of the rich interactions of my class and the lecturing staff. The programme combines distinctive theoretical subjects and practical case studies, all delivered by top-notch lecturers, themselves internationally recognised authorities in their respective fields. All of these combined, give us the tools to sharpen our professional thinking"
