The School of business administration at Kobe University organizes and implements its educational programs in accordance with the following policies, based on the policy for conferring degrees established by the school and the policy on the organization and implementation of curricula set by Kobe University.

Degree: Bachelor of Business Administration

1.The School offers the Liberal Arts Course subjects in order to develop a broad and deep education and a comprehensive capacity for judgment, to cultivate a rich sense of humanity, and to achieve the common aim of learning for all students at the university.

2.The School offers the Course in Major subjects in order to develop a profound knowledge and advanced professional skills, and to achieve the common aim of learning for all students at the university and the learning goal set by The School.

・The School provides Group 1 subjects (basic subjects), Group 2 subjects (basic subjects), common specialized foundation subjects, and first year seminars so that students can acquire the in-depth general education and high ethical standards necessary to understand the essence of the relationship between an organization and the society and environment surrounding it.

・The School provides Group 2 subjects (basic subjects) and Group 3 subjects (applied/developed subjects) for students to acquire the basic and specialized knowledge in the fields of business administration and accounting. This enables them to obtain the critical thinking and judgement skills necessary to understand actual situations and problems related to management and solve them practically and innovatively.

・The School provides global subjects and research guidance so that students can acquire the expressiveness and communication skills needed to appropriately communicate their own thoughts on management not only to people in Japan, but also to people overseas.

3. Classes shall be conducted through lectures, seminars, experiments, practical training, or a combination of these.

4. Assessment is carried out in a combined and comprehensive manner in line with the learning objectives, including through written exams, assignments, presentations and active participation.
