The 16th KUEB Premier Seminar

We are pleased to announce an upcoming seminar, the 16th KUEB (Kobe University Engineering Biology Project) Premier Seminar, focused on Engineering Biology and related areas across the life sciences. This event will bring together researchers from diverse disciplines. Our goal is to foster meaningful interdisciplinary exchange and collaboration, creating new opportunities for innovation and partnership.

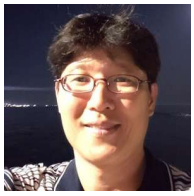

Opening Remarks — **Dr. Tomohisa Hasunuma, Kobe University**

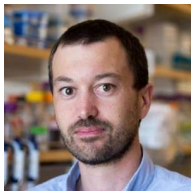

Dr. Gilles Truan
Toulouse Biotechnology Institute, France

Dr. Stéphane Lemaire
CNRS / Sorbonne Université, France

Dr. Tae Seok Moon
J. Craig Venter Institute, USA

Dr. David Savage
University of California, Berkeley, USA

Dr. Nin Kirkham
University of Western Australia, AUS

Dr. Thomas Walther
TU Dresden, Germany

Host Presentation
Dr. Tomohisa Hasunuma

Information on all speakers and presentation titles will be updated as it becomes available.
